DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 42 and 49 recites the limitation "the group of telephone number". There is insufficient antecedent basis for this limitation in the claim.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 41-56 are rejected under 35 U.S.C. 102(e) as being anticipated by Uhl et al. (U.S. 6,292,709).

5.

Uhl et al. teaches claims :

41. A mail piece including a plurality of markings, for delivery to a recipient from a sender, comprising:

a first marking including a sender address and a recipient address; (Fig.7, "Sender, sender street, 33333 Sender City"; "Recipient old street 145, 1234 old city")

a second marking indicating that the mail piece is undeliverable to the recipient (Fig.7, "FORWARD New Street 99, 65676 New City"); and,
a third marking including access information for accessing a locator service via a communication network to assist the sender in locating current contact information for the recipient. (Fig.7, "barcode for the new address")

45. A mail piece, as set forth in claim 41, wherein said sender address is a sender postal address and said recipient address is a recipient postal address. (Fig.7)

46. A method for returning to a sender mail for a recipient, comprising the steps of receiving mail including a sender address and a recipient address;
determining that the mail is undeliverable to the recipient;
adding to the mail access information for accessing a locator service via a communication network to assist the sender in locating current contact information for the recipient; and
delivering the mail to said sender address. (Claim 46 is similarly rejected as in claim 41)

47. A method for returning to a sender mail for a recipient, as set forth in claim 46, wherein said sender address is a sender postal address and said recipient address is a recipient postal address. (Fig.7)

48. A method for returning to a sender mail for a recipient, as set forth in claim 46, further including instructing a mail carrier to return the mail to said sender address. (Fig.12, "[] refusal to accept [x] moved with forwarding address [] recipient has died/resolved")

50. A method for returning to a sender mail for a recipient, as set forth in claim 49, wherein said step of adding to said mail access information further includes the step of marking said access information upon said mail. (fig.12)

51. A method for returning to a sender mail for a recipient, as set forth in claim 49, wherein said step of adding to said mail access information further includes the step of stamping said access information upon said mail.(fig. 12, "city of sender, your shopping paradise")

52. A method for returning to a sender mail for a recipient, as set forth in claim 49, wherein said step of adding to said mail access information further includes the step of inking said access information upon said mail. (figs. 9-12)

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Response to Arguments

6. Applicant's arguments with respect to claims 41-56 have been considered but are moot in view of the new ground(s) of rejection.

With respect to applicant's argument that Uhl does not teach "assisting the sender after mail is returned to sender". The examiner respectfully disagrees. In contrary, Uhl teaches a method of assisting senders a letter to be forwarded or

returned. Figs. 8-12 show a mail item to be returned following processing in the online system for automatic processing of items to be forwarded and returned.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
